# EQUIPMENT

If you are looking to purchase any sort of catering equipment we would highly recommend that you get in touch so that we can help you find the correct item that best suits you, your business, your team and your budget. We can also look at first time fix rates and down time reports on this equipment to make sure that it is perfect for you. This service will save you time, effort and money both in expenditure and also over time. We can also make sure that it sits with your eco ethos for example combi ovens that use less water when on steam or induction units that heat quickly using less electric.

If you are looking for light goods for your business please do take a look at a few of our suppliers but we can always find what you are looking for.

[American MetalCraft](#) - Tableware – Buffet - Display

[Table Craft](#) – Tableware – Buffet - Display

[Roseto](#) – Display – Dispense

[Sammic](#) – SousVide – Warewash – Food production

[Blue Seal](#) – Everything Cooking
